Item no. 00236673

Maximum dimensions: approx. 3700 x 500 x 2700 mm

RELIABLE AND POWERFUL LIFTING WORK. THE DEMMELER® ATTACHABLE SLEWING CRANE SUPPORTS YOU IN WORKING WITHOUT STRAIN.

The DEMMELER® add-on slewing crane on DEMMELER® 3D welding tables is extremely versatile. Its lightweight design allows loads to be moved quickly and precisely, even at large projections, and supports ergonomic working. Components weighing up to 250 kg can be easily removed from fixtures and swivelled without any problems.

Simple operation

- One-handed operation possible
- Robust control unit
- No overlap in hall crane usage

User-friendliness

- Lifting tasks often require little effort, which increases ease of use and efficiency
- The operator can move the load in almost any direction

Versatile and safe

- Swivel restriction possible
- Various mounting options
- Minimal restriction of table use
